

Class 2 **Literacy**

During this term children will be following units of work covering the following genre:

- Letters
- Story writing
- Non-fiction
- Sentence skills

Handwriting will continue to be taught. The teaching of spelling will be at appropriate and differentiated levels for different groups of children within the class.

Mathematics

The mathematics curriculum for each year group is divided into five main blocks of work. Each of these is revisited every term, allowing for progression of content and understanding. This term the units covered will be:

- Place Value
- Addition/Subtraction
- Measures including – Money
Time
Length
Weight
Volume

Topics

This term's topics are:

- Animals of the World
- Light and Colour (including Diwali and Fireworks)

Cross curricular activities have been planned in order that the different subjects of The National Curriculum are covered. These include science, history, geography, art and DT. Skills the children have been taught in literacy, mathematics, ICT and other subjects will also be included.
